IDT CONFERENCE 2008

18-20 April 2008

You are invited to our third biennial conference

to be held at the wonderful Tauhara Centre, above Acacia Bay, Lake Taupo, New Zealand

Conference will consist of a variety of one-hour presentations: - hands-on workshops, case-work studies, theoretical papers, relevant social and professional commentary, research reports, success stories, inspiring IDT discoveries, practice seminars, new applications, interspersed with discussion groups and plenary sessions, and the occasional irreverent presentation.

CALL FOR PRESENTATIONS

We invite proposals for presenting at our IDT Conference 2008.

Please ensure your application includes: Title, Presenter information, Abstract, Relevance of Presentation, Participant Outcomes, AV requirements. Please email your submission to idt@pl.net

INVITATION TO DEBATE

We'll be having two debates on the Friday night,
and invite you to suggest some rigorous and challenging topics for debate,
and let us know if you'd like to be on the debating team (+/-) for that moot.

IDT Conferences are restricted to Foundation Course graduates, and provide a fantastic opportunity to strengthen and enrich your IDT awareness and repertoire, extend your IDT enthusiasm, widen your IDT horizons, deepen your sense of vocation, have innovative IDT sessions, meet old friends and make new ones, soak in a hot-river wallow or walk the river edge, feast on superb food, enjoy the party, make plans, find some quiet time - a necessary luxury of environment, learning, company and fun

Because of the wide range of uses that IDT is applied to, there is no restricted theme for this conference,
so please come at the leading edge of your own interests.

We guarantee you'll be surprised, impressed, stimulated and motivated when you hear the inspiring and exciting work that many IDT'ers are doing.

IDT has a growing international reputation, and is being used across a very wide range of user groups.

Further publications and research are currently being prepared, and our future is looking strong.

IDT Conference is a great occasion to explore our edges, consolidate our depths, and look to the horizon.

Please note that completion of the IDT Foundation Course (Units 1 and 2) is a prerequisite to attend the conference.

I encourage you to take this great opportunity to present to your peers.

Please fill in the form below and send it in by return mail.

This is a time for doing – you can think later !

Russell Withers
Conference Convenor
